

9 April 1971

MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Activities Report
5 - 9 April 1971

STAFF TRAINING BRANCH

1. The Special Operations and Liaison Course for NSA was completed on Thursday, 8 April. The lively discussion evoked by the closing panel took so much time that written critiques were not completed. The students promised to send them in by the end of next week. All the students stated, however, they considered the course most helpful and thought it would be very beneficial to their co-workers, particularly those from the Production Section, and they would make such a recommendation to their chiefs. They all voiced satisfaction with the schedule and the subject matter presented. 25X1A9a
25X1A8a [REDACTED] took this opportunity to explain to [REDACTED] of the Collection Branch of [REDACTED] that should the course be repeated it would probably be necessary to have one large class rather than two or three smaller ones because the speakers involved are very busy men and must also be shared with other long-established, advanced OTR courses.

AGENT AND LIAISON TRAINING BRANCH

2. Nine programs involving 31 trainees were conducted, seven in Washington and two TDY's.
